				<p>facilities, including but not limited to utility vaults and transformers shall be located on private property. Property owners will receive an FAR credit equivalent to the amount of space occupied by the necessary utility facility.</p> <p>Easements. The property owners shall provide easements to all applicable utility companies for the installation and maintenance of underground utilities.</p> <p>Alternative funding mechanism. A Special Taxing District or Special Assessment District may be created pursuant to Florida Statutes to fund the installation and maintenance of underground utilities and all public realm improvements.</p>
6.	✓	✓	Transfer of density and floor area ratio within the site plan.	The density and floor area ratio may be transferred throughout the contiguous unified parcel.

Section 4-202. University of Miami Campus Area Development (UMCAD).

The following standards, regulations and requirements apply to the University of Miami Campus Area Development (UMCAD) district. These standards, regulations and requirements contained in Sections 4-202(A) thru 4-202(Q) herein either supersede or are in addition to those described in Sections 4-202(R) thru 4-202(U). The University of Miami Campus Area Development District is defined for the purpose of those regulations as a Planned Campus Development for the establishment of a functional, aesthetic and progressive organization of university activities including educational, dormitory, classroom, administrative, social, open space, parking, maintenance and auxiliary university functions.

- A. Intent. The purpose of this section is to provide a comprehensive set of regulations by which the University's growth can be governed and reviewed. These regulations have the effect of supplanting requirements listed within existing districts by requiring an organized Development Plan which protects the public interest, ensures compatibility with surrounding neighborhoods, establishes a plan for growth upon which the University, surrounding neighbors and the City can rely, protects against incongruent design and the destruction of natural features and streamlines the permit approval process.
- B. Permitted locations. UMCADs shall be allowed in any C, I or S zoning districts and previously assigned nonconforming XR zoning districts.
- C. Uses permitted. The following uses are permitted in UMCAD district subject to the limitations and requirements set out herein:
 - 1. Classroom facilities.
 - 2. Lecture halls.
 - 3. Research/laboratory facilities.
 - 4. Dormitory/residential facilities.
 - 5. Administrative, faculty and other non-commercial offices.

ARTICLE 4 - ZONING DISTRICTS

6. Social activities facilities.
 7. Recreational and athletic facilities.
 8. Parking lots and garages.
 9. Theaters, concert halls and assembly hall/arena.
 10. Museum.
 11. Library facilities.
 12. Religious facilities.
 13. Private Clubs/Fraternity/Sorority facilities.
 14. University support facilities such as: printing, data processing, laundry, child care, physical plant, utilities, security, health care and maintenance.
 15. University convenience facilities such as: cafeteria, bookstore, snack bar, gift shop, postal office and automatic teller machines.
 16. Other auxiliary-uses of a support or incidental nature to the operation of a university such as loading areas and kiosks.
- D. Campus master plan. A Campus Master Plan as outlined in Section 4-202(T), with illustrative exhibits shall serve as the Campus Land Use and Development Plan. It shall guide the location of uses and structures. The Campus Master Plan shall include an illustrative master site plan drawn at scale no smaller than 1" = 200' which clearly designates all existing and proposed structures. Additionally, the Campus Master Plan shall include the following zoning information: general setback and height criteria; and campus-wide ground area coverage and floor area ratio applicable on a cumulative basis for all structures.
- E. Supplementary reports. In addition to the Campus Master Plan, the University shall submit supplementary reports including a Design Manual, Traffic Parking Report, and Utility Report that serve as supporting documentation and/or technical reports and address specific issues such as traffic, parking, signage, lighting, landscaping and architectural style.
- F. Annual report. The University of Miami shall submit an Annual Report which updates and documents any proposed modifications to the Campus Master Plan and supplementary reports. The Annual Report shall consist of the same type of maps, documents and supplementary material referred to in subsections 4-202(D) and 4-202(E) as required, based on the types of changes and modifications proposed. When approved, the Annual Report shall supersede those portions of the previously approved Campus Master Plan and supplementary documents, as applicable.

The Annual Report shall be submitted to the Planning Department no later than June 1st of each year and shall be reviewed and approved in the same manner as the original documents as outlined in Section 4-202(T). In the event that the University does not file an Annual Report within the specified time, then the latest edition of the Campus Master Plan and supplementary documents will remain in effect during the next twelve (12) month period. A permit for construction shall not be issued for a project which substantially deviates from, or constitutes a major amendment to, any of the components of the approved Campus Master Plan, supplementary reports or the annual report.

- G. External relationships. Scale in the UMCAD shall be such that careful site planning consideration shall be given to the relationship between the University uses and structures, and off-campus uses and structures in the surrounding neighborhoods. The UMCAD district as represented in the Campus

ARTICLE 4 - ZONING DISTRICTS

Master Plan, Supplementary Documents or Annual Report shall provide protection of surrounding areas from potentially adverse impact and influences from the development and provide protection of the development from potentially adverse surrounding influences.

- H. Vehicular access and circulation. The University shall pay special attention to vehicular access points to and from the development. Vehicular traffic flow related to the UMCAD District shall be so designed and oriented that it will not detrimentally impact nearby residential neighborhoods. Arrangements for traffic flow to and from the development shall be so designed to retain the major portion of such traffic on designated arterial and collector streets. Relationships of traffic flow to off-street parking, off-street loading and the location of refuse and service areas for the UMCAD district shall be in accordance with relevant sections of the City Code and Zoning Code.

Additionally, the University shall submit a Traffic Impact Analysis Report as part of the Annual Report whenever University development or redevelopment projects, individually or collectively, constitute a net increase to the campus gross floor area of two-hundred thousand (200,000) square feet. The Traffic Impact Analysis Report shall be prepared by a certified traffic planner or engineer and shall assess existing and projected roadway conditions, levels of service, traffic volumes/capacities and other information necessary to determine the impact of proposed development. The report shall also identify ways of mitigating any negative impacts projected by the analysis. Where improvements in existing street systems, including street widening, traffic dividers, signalization, and the like are found by standard traffic engineering projections and methods to be required in order to maximize safety and convenience and to minimize automotive conflicts in connection with proposed projects within the UMCAD district, approval of said projects shall be conditioned on arrangements being made for the provision of such improvements.

- I. Off-street parking. Location for off-street parking shall be shown on the Campus Master Plan and/or Supplementary Documents and shall be provided in such amounts and areas within the development that students, faculty, employees and visitors will not have to park in abutting residential areas or other off-campus areas which could be detrimentally impacted as a result of inadequate campus parking provisions. In projecting parking needs, standard traffic engineering methods shall be used and consideration shall be given to daily, regular users of the University, auto driver visitors and persons arriving by mass transportation.

The University shall monitor the capacity and utilization of its off-street parking facilities and perform supply/demand analysis as required to assess the level of utilization, availability and appropriateness of location of campus parking facilities. The analysis shall also indicate the type of user and the extent to which parking is used jointly by different components of the campus. The results of the monitoring and analysis shall be incorporated in a Parking Impact Analysis Report prepared by a certified traffic planner or engineer.

Approval of a building permit application shall not be granted unless all anticipated parking needs are shown on the Campus Master Plan Supplementary Documents or Annual Report and referred to in the University's application, and the University demonstrates that required parking for each phase of development shall be made prior to or concurrent with such development.

- J. Signs and lighting. As part of the UMCAD district the University shall include in its Design Manual a general signage and lighting plan. The manual shall show the design criteria for location and type of signage and lighting to be used. Additionally, the following information shall be included:
1. Treatment of lighting and signage visible from public accessways and residential areas;
 2. Adequacy and suitability of lighting used in areas for off-street parking and other locations where safety is a special consideration;
 3. General criteria for the character and size of signage to be used.

In approving the proposed design manual, preference will be given to low profile, landscaped signs.

ARTICLE 4 - ZONING DISTRICTS

Additionally, approval shall be based on the character of the proposed signage and lighting, and their compatibility and appropriateness with their surroundings.

- K. Height and setbacks of buildings. All new proposed structures and buildings within the UMCAD district shall comply with the height and setbacks criteria specified in the Campus Master Plan.

In determining heights for the campus property, consideration shall be given to the nature and character of the proposed development and the appropriateness and impact of the proposed height to the surrounding area.

In approving the proposed UMCAD, preference shall be given to locating the highest structures at the center of the campus or along a major roadway. Additionally, preference shall be given to the stratification of height away from residential neighborhoods.

- L. Internal relationships and arrangement of uses. Compatible and complementary uses proposed within the UMCAD district be so arranged as to:

1. Provide for safe, efficient, and harmonious groupings of structures and facilities.
2. Create successful relationships between interior and exterior spaces.
3. Include adequate parking facilities within a reasonable distance of the function they serve.
4. Include pedestrian linkage between facilities.
5. Simplify circulation routes and minimize opportunities for pedestrian/vehicular conflicts.

- M. Regulatory controls. No specified lot coverage, setback, frontage, facing or number of buildings per site restrictions are set forth herein. All existing and proposed facilities shall be illustrated on a Master Site Plan approval of the Development Plan, including the Campus Master Site Plan, shall constitute approval and establishment of said regulatory controls.

- N. Pedestrian amenities. Wherever possible in the UMCAD district, pedestrian amenities should be provided. Features such as convenient and covered walkways, benches, water fountains, trash receptacles, bicycle racks and landscaping shall be included, especially along street frontages and near access points should be addressed in the design manual.

- O. Architectural design. In order to provide a cohesive aesthetic environment within the UMCAD district, the University shall submit design criteria to guide the architectural appearance and style of campus development.

- P. Landscaping. Desirable landscaping shall be preserved in its natural state to the maximum extent possible. General landscaping requirements and standards established by code for off-street parking, yards and open space shall be considered supplemental to retention of desirable natural features. Placement of structures and vehicular areas shall be such as to retain, to the extent reasonable practical, desirable existing landscaping, open space and natural features, and to promote provisions of compatible new landscaping. Desirable native plant materials, and such exotic plant materials as have become traditional in the area, shall be preferred in plant selection.

- Q. Utilities.

1. The University shall make the necessary arrangements with the public utility companies. County and Municipal agencies having jurisdiction over the permitting and provision of infrastructure services (such as potable water, fire, flow, sewer, storm water/drainage, telephone cable, electricity, gas, etc.), to ascertain the sufficiency of available capacity to meet as a minimum, the needs of a five (5) year projected growth program for the campus.
2. The growth projections and their impact on existing utilities, along with any recommended utility

ARTICLE 4 - ZONING DISTRICTS

improvements to meet future campus development or redevelopment, shall be included in the Annual Report.

- R. Standards and criteria for general development control. The City Commission may authorize the issuance of a special-use permit for the construction of an UMCAD subject to compliance with the development criteria and minimum development standards for an UMCAD as set forth herein:
1. Permitted locations of an UMCAD. An UMCAD shall be permitted within any zoning district in accordance with the applicable sections contained in this Article.
 2. Uses permitted. The uses permitted within an UMCAD shall be those uses specified and permitted within the Use District in which the UMCAD is located, or those specifically listed in this Article.
 3. Relation of UMCAD regulations to general zoning, subdivision, or other regulations. The UMCAD Regulations as set forth herein shall apply generally to the initiation of applications for and regulations of all UMCADs. Where there are conflicts between the UMCAD provisions herein and general zoning, subdivision or other regulations and requirements, these special regulations shall apply, unless the Planning and Zoning Board recommends and the City Commission finds, in the particular case:
 - a. That provisions herein do not serve public purposes to a degree at least equivalent to such general zoning, subdivision, or other regulations or requirements; or
 - b. That actions, designs, construction or other solutions proposed by the applicant, although not literally in accord with these special regulations, satisfy public purposes to at least an equivalent degree. It is specifically provided, however, that where the floor area ratio and similar ratios, including land use and density, have been generally established for a particular type of district or in particular areas, the City Commission shall not act in a particular case to alter said ratios. Except as indicated above, notwithstanding procedures and requirements generally in effect, procedures and requirements set forth herein and in the guides and standards adopted as part of these regulations shall apply for an UMCAD and to any amendments for such developments and issuance of all permits therefore.
 4. Developments of regional impact/developments of county impact. In addition to the requirements stated herein, any application for an UMCAD which meets the definitions of a Development of Regional Impact and Development of County Impact under the rules administered by the State and County, must be accompanied by the reports and studies required for Developments of Regional Impact and/or Developments of County Impact.
 5. Minimum development standards. Any parcel of land for which an UMCAD is proposed must conform to the following minimum standards:
 - a. Minimum site area. The minimum site area required for an UMCAD shall be not less than two (2) acres.
 - b. Configuration of land. The parcel of land for which the application is made for an UMCAD shall be a contiguous unified parcel with sufficient width and depth to accommodate the proposed use. The minimum average width and or depth for any UMCAD shall be two-hundred (200) feet with a minimum area of not less than two (2) acres.
 - c. Floor area ratio for an UMCAD. The floor area ratio for an UMCAD shall conform to the requirements for each intended use provided, however, that the total combined floor area ratio for all uses within the UMCAD shall not exceed two and one-half (2½).
 - d. Density for apartments and hotels. The density requirements for apartments and hotels shall be in accordance with the provisions as set forth under Sections 4-103(D)(3).

ARTICLE 4 - ZONING DISTRICTS

- e. Transfer of density within an UMCAD. The density within an UMCAD shall be permitted to be transferred throughout the development site subject, however, to the requirements as set forth in Section 4-202(R)(5)(c) herein.
- f. Landscaped open space. The minimum landscaped open space required for an UMCAD shall be not less than twenty (20%) percent of the UMCAD site.
- g. Height of buildings. The maximum height of any building in an UMCAD shall conform to the provisions as set forth under the adopted UMCAD Master Plan document.
- h. Perimeter and transition. Any part of the perimeter of an UMCAD which fronts on an existing street or open space shall be so designed as to complement and harmonize with adjacent land uses with respect to scale, density, setback, bulk, height, landscaping and screening.
- i. Minimum street frontage; building site requirement, number of buildings per site, lot coverage and all setbacks. There shall be no specified minimum requirements for street frontage, building sites, number of buildings within the development, lot coverage and within these regulations for an UMCAD; however, all such street frontages, building sites, number of buildings within the development, lot coverage and setbacks shall be included in the UMCAD application materials and shall be subject to approval by the City Commission upon recommendation from the Planning and Zoning Board.
- j. Platting and/or replatting of development site. Nothing contained herein shall be construed as requiring the platting and/or replatting of a development site for an UMCAD provided, however, that the City Commission may require the platting or replatting of the development site when it determines that the platting or replatting would be in the best interest of the community.
- k. Facing of buildings. Nothing in this ordinance shall be construed as prohibiting a building in an UMCAD from facing upon a private street when such buildings are shown to have adequate access in a manner which is consistent with the purposes and objectives of these regulations and such private street has been recommended for approval by the Planning and Zoning Board and approved by the City Commission.
- l. Off-street parking and off-street loading standards and requirements. The off-street parking and off-street loading standards and requirements for an UMCAD shall conform to the requirements as set forth under Article 5, Division 14 herein and provided, however, that off-street parking for bicycles shall be provided as may be required by the Planning and Zoning Board and approved by the City Commission. Where the parking for the development is to be located within a common parking area or a parking garage, a restrictive covenant shall be filed reserving within the parking area or the parking garage the required off-street parking for each individual building and/or use and such off-street parking spaces shall be allocated proportionately.
- m. Boats and recreational vehicle, parking. No boats and/or recreational vehicles shall be parked on the premises of an UMCAD unless such boats and/or recreational vehicles are located within the confines of an enclosed garage.
- n. Auxiliary and/or accessory uses and structures. Uses and structures which are customarily auxiliary and accessory and clearly incidental to permitted uses and structures are permitted in an UMCAD subject to limitations and other lawful regulations pertaining thereto. Any use permissible as a principal use may be permitted as an accessory use, subject to limitations and requirements applying to the principal use.
- o. Signs. The number, size, character, location and orientation of signs and lighting for signs for an UMCAD shall be in accordance with Article 5, Division 19 herein.
- p. Refuse and service areas. Refuse and service areas for an UMCAD shall be so designed,

ARTICLE 4 - ZONING DISTRICTS

located, landscaped and screened and the manner and timing of refuse collection and deliveries, shipment or other service activities so arranged as to minimize impact on adjacent or nearby properties or adjoining public ways, and to not impede circulation patterns.

- q. Minimum design and construction standards for private streets and drainage systems. The minimum design and construction standards for private streets in an UMCAD shall meet the same standards as required for public streets as prepared by the Public Works Department of the City of Coral Gables. The minimum construction standards for drainage systems shall be in accordance with the Florida Building Code as amended.
- r. Ownership of UMCAD. All land included for purpose of development within an UMCAD shall be owned by the applicant requesting approval of such development, whether that applicant be an individual, partnership or corporation, or groups of individuals, partnerships or corporations. The applicant shall present proof of the unified control of the entire area within the proposed UMCAD and shall submit an agreement stating that if the owner(s) proceeds with the proposed development they will:
 - i. Develop the property in accordance with:
 - (a) The final development plan approved by the City Commission for the area.
 - (b) Regulations existing when the UMCAD ordinance is adopted.
 - (c) Such other conditions or modifications as may be attached to the approval of the special-use permit for the construction of such UMCAD.
 - ii. Provide agreements and declarations of restrictive covenants acceptable to the City Commission for completion of the development in accordance with the final development plan as well as for the continuing operation and maintenance of such areas, functions and facilities as are not to be provided, operated or maintained at general public expense.
 - iii. Bind the successors and assigns in title to any commitments made under Section 4-202(R)(5)(w)(i) and (ii) herein.
- s. Compatibility with historic landmarks. Where an historic landmark exists within the site of an UMCAD the development shall be required to be so designed as to insure compatibility and congruity with the historic landmark.
- t. Easements. The City Commission may as a condition of approval and adoption of the UMCAD require that suitable areas for easements be set aside, dedicated and/or improved for the installation of public utilities and purposes which include, but shall not be limited to water, gas, telephone, electric power, sewer, drainage, public access, ingress, egress, and other public purposes which may be deemed necessary by the City Commission.
- u. Installation of utilities. All utilities within an UMCAD including but not limited to telephone, electrical systems and television cables shall be installed underground.
- v. Mixed-uses within an UMCAD. An UMCAD may be so designed as to include the establishment of complementary and compatible combinations of office, hotel, apartment and retail uses which shall be oriented to the development as well as the use district in which the development is located. The applicant may utilize the provisions of Section 4-201 of this Code.
- w. Common areas for UMCAD. Any common areas established for the UMCAD shall be subject to the following:
 - i. The Planning and Zoning Board shall recommend and the City Commission shall require that the applicant provide for and establish a property owner's association for the ownership and maintenance of all common areas, including open space, recreational facilities, private streets, etc. Such association shall not be dissolved nor shall it dispose of any common areas by sale or otherwise (except to an organization conceived and established to own and maintain the common areas), however, the conditions of transfer

ARTICLE 4 - ZONING DISTRICTS

shall conform to the Development Plan.

- ii. Membership in the association shall be mandatory for each property owner in the UMCAD and any successive purchaser that has a right of enjoyment of the common areas.
- iii. The association shall be responsible for liability insurance, local taxes, and the maintenance of the property.
- iv. Property owners that have a right of enjoyment of the common areas shall pay their pro rata share of the cost, or the assessment levied by the association shall become a lien on the property.
- v. In the event that the association established to own and maintain commons areas or any successor organization, shall at any time after the establishment of the UMCAD fail to maintain the common areas in reasonable order and condition in accordance with the Development Plan, the City Commission may serve written notice upon such association and/or the owners of the UMCAD and hold a public hearing. If deficiencies of maintenance are not corrected within thirty (30) days after such notice and hearing the City Commission shall call upon any public or private agency to maintain the common areas for a period of one (1) year. When the City Commission determines that the subject organization is not prepared or able to maintain the common areas such public or private agency shall continue maintenance for yearly periods.
- vi. The cost of such maintenance by such agency shall be assessed proportionally against the properties within the UMCAD that have a right of enjoyment of the common areas and shall become a lien on said properties.
- vii. Land utilized for such common areas shall be restricted by appropriate legal instrument satisfactory to the City Attorney as common areas in perpetuity. Such instrument shall be recorded in the Public Records of Miami-Dade County and shall be binding upon the developer, property owners association, successors, and assigns and shall constitute a covenant running with the land.

S. General procedures for plan approval.

1. Pre-application conference with the Planning Department. Before submitting an application for approval of an UMCAD amendment the applicant or his representative shall confer with the City of Coral Gables Planning Department before entering into binding commitments or incurring substantial expense. The applicant is encouraged to submit a tentative land use sketch for review and to obtain information on any projected plans, programs or other matters that may affect the proposed development. The pre-application conference should address, but shall not be limited to, such matters as:
 - a. The proper relationship between the proposed development and the surrounding uses, and the effect of the plan upon the Comprehensive Plan of the City of Coral Gables.
 - b. The adequacy of existing and proposed streets, utilities and other public facilities and services within the UMCAD.
 - c. The character, design and appropriateness of the proposed land uses and their adequacy to encourage desirable living conditions, to provide separation and screening between uses where desirable and to preserve the natural and scenic areas and vistas of property.
 - d. The adequacy of open space and recreation areas existing and proposed to serve the needs of the UMCAD.
2. Pre-application review. The applicant shall distribute a copy of his plans or exhibits to the Director of Building and Zoning, Public Works Director, Public Service Director, Planning Director, Fire Chief and the Historical Resources Director (if applicable) and upon their review of the plans they shall advise the applicant of any recommended revisions, changes or additional information necessary before the filing of a formal application.
3. Board of Architects review. After preliminary review by the departments, and the Historical Resources

ARTICLE 4 - ZONING DISTRICTS

Department (if applicable), the applicant shall revise the plans to incorporate all recommended revisions and changes and shall submit such plans to the Board of Architects for review and preliminary approval prior to filing a formal application for Planning and Zoning Board review.

4. Development plan general requirements.
 - a. Professional services required: Plans for buildings or structures within the UMCAD shall be prepared by a registered Architect with the assistance of a registered Engineer and a registered Landscape Architect, all being qualified under the laws of the State of Florida to prepare such plans.
 - b. Legal description of site: Should the legal description of the site for the UMCAD contain a metes and bounds description, such description shall be prepared by a registered land surveyor. The legal description shall be accompanied by a map at a scale suitable for reproduction for advertising for public hearing, showing exact location of the development.
 - c. Development proposal: The Development Plan shall consist of a map or map series and any technical reports and supporting data necessary to substantiate, describe or aid the Development plan. The plans for the development proposal shall include the following written and graphic materials:
 - i. Site condition map: Site condition map or map series indicating the following:
 - (a) Title of UMCAD and name of the owner(s) and developer.
 - (b) Scale, date, north arrow and the relationship of the site to such external facilities as highways, roads, streets, residential areas, shopping areas and cultural complexes.
 - (c) Boundaries of the subject property, all existing streets, buildings, water courses, easements, Section lines and other important physical features within the proposed project. Other information on physical features affecting the proposed project as may be required.
 - (d) Existing contour lines at one foot intervals. Datum shall be National Geodetic Vertical Datum (N.G.V.D.) (if required by City Staff).
 - (e) The location of all existing storm drainage, water, sewer, electric, telephone and other utility provisions.
 - ii. Plan of pedestrian and vehicular circulation showing the location and proposed circulation system of arterial, collector, local and private streets, including driveways, service areas, loading areas and points of access to existing public right-of-way and indicating the width, typical sections and street names. The applicant is encouraged to submit one (1) or more companion proposals for a pedestrian system, transit system or other alternative for the movement of persons by means other than privately owned automobiles.
 - iii. Exterior facade elevations (if deemed appropriate or necessary by City Staff) of all proposed buildings to be located on the development site.
 - iv. Isometrics or perspective and/or mass model(s) (if deemed appropriate or necessary by City Staff) of the UMCAD.
 - v. Map of existing land use.
 - vi. Existing and proposed lot(s) lines and/or property lines.
 - vii. Master site plan--A general plan for the use of all lands within the UMCAD. The plan shall guide the location of permissible uses and structures. Such plan shall show the general location, function and extent of all components or units of the plan, indicating the proposed gross floor area and/or floor area ratio of all existing and proposed buildings, structures and other improvements including maximum heights, types and number of dwelling units, landscaped open space provisions such as parks, passive or scenic areas, common areas, leisure time facilities, and areas of public or quasi-public institutional uses.
 - viii. Location and size of all existing and proposed signs (unless otherwise specified as in Section 4-202(J)).
 - ix. Existing and proposed utility systems including sanitary sewers, storm sewers and/or storm water drainage system and water, electric, gas and telephone lines. The applicant shall submit a statement indicating what proposed arrangements have been made with appropriate

ARTICLE 4 - ZONING DISTRICTS

agencies for the provision of needed utilities to and within the UMCAD including, water supply, sewer, storm drainage collection and disposal, electric power, gas, and telephone.

- x. General landscape plan indicating the proposed treatment of materials used for public, private and common open spaces and treatment of the perimeter of the UMCAD including buffering techniques such as screening, berms and walls, significant landscape features or areas shall be noted as shall the provisions for same.
 - xi. Description of adjacent land areas, including land uses, zoning, densities, circulation systems, public facilities, and unique natural features of the landscape.
 - xii. Proposed easements for utilities, including water, power, telephone, storm sewer, sanitary sewer and fire lanes showing dimensions and use.
 - xiii. Location of proposed off-street parking. Smaller developments (as determined by the Planning Director) shall also be required to include stall size, aisle widths, location of attendant spaces, number of spaces by use, number of standard and compact spaces.
 - xiv. Location and designation of historic landmarks located within the UMCAD which have been approved as provided within the Zoning Code or notation of those structures which may be worthy of historic designation.
 - xv. Certified survey showing property boundary, existing buildings and their dimensions, setbacks from streets, (public and private) and property lines, easements, streets, alleys, topographical data, water areas, unique natural features, existing vegetation and all trees with an upright trunk of either nine (9) or more inches in circumference (as measured at the narrowest point below four and one-half (4½) feet above ground level) or twelve (12) or more feet in height (if required by City Staff).
 - xvi. Proposed development schedule indicating the appropriate date when construction of the development can be expected to begin and be completed, including initiation and completion dates of separate phases of a phased development and the proposed schedule for the construction and improvement of common areas within said phases, including any auxiliary and/or accessory buildings and required parking.
 - xvii. Location and designation of proposed traffic regulation devices within the development.
 - xviii. Statistical information including:
 - (a) Total square footage and/or acreage of the development site.
 - (b) Maximum building coverage expressed as a percentage of the development site area.
 - (c) The land area (expressed as a percent of the total site area) devoted to:
 - (1) Landscaped open space; and
 - (2) Common areas usable for recreation or leisure purposes.
 - xix. Copies of any covenants, easements and/or agreements required by this section or any other ordinance and/or regulations for the UMCAD.
- T. Application and review procedures for approval of plans.
1. Application. The applicant for an UMCAD amendment shall file a written application therefore with the Planning Department on forms prepared by such department. Such application shall be accompanied by fifteen (15) sets of required plans, technical reports, update reports and/or exhibits. All plans shall have the details needed to enable the department heads, Fire Chief, Boards and City Commission to determine whether the proposed development complies with this section and all other applicable ordinances and regulations of the City. The plans shall have the preliminary approval of the Board of Architects as provided for under Section 4-202(S)(3) herein. Upon receipt of such completed application, all supporting data and exhibits and payment of the required costs and fees, the time periods established in this subsection shall commence. Any application for approval of an UMCAD amendment which meets the definition of a development of regional impact under Chapter 28 of the Florida Administrative Code and/or Development of County Impact as defined under Chapter 33A of the Code of Miami-Dade County must be accompanied by the reports, studies and recommendations required for Developments of Regional Impact and/or Development of County Impact provided, however, that the provisions of Development of County Impact does not apply where the development meets the requirement of a Development of Regional Impact.
 2. Review of plans. Upon acceptance of the application, the Planning Department shall transmit the Plan

ARTICLE 4 - ZONING DISTRICTS

Package to the Director of Building and Zoning, Public Works Director, Public Service Director, Fire Chief and the Historical Resources Director (if applicable) for their review and comments. Within sixty (60) days from the filing date, the Director of Building and Zoning, Public Works Director, Public Service Director, Planning Director, Fire Chief and the Historical Resources Director (if applicable) shall review the preliminary plan and shall submit in writing to the Planning and Zoning Board their comments concerning the proposed development. The comments shall include any changes which should be made to bring the plans in compliance with applicable rules and regulations.

3. Public hearing. The Planning and Zoning Board shall hold a public hearing within ninety (90) days from the date of filing the application. Such public hearing shall be in accordance with the provisions of Section 3-302 herein. The Planning and Zoning Board shall recommend to the City Commission the approval, approval with modifications, or denial of the plan for the proposed UMCAD amendment and shall include not only conclusions but also findings of fact related to the specific proposal and shall set forth particularly in what respects the proposal would or would not be in the public interest. These findings shall include, but shall not be limited to the following:
 - a. In what respects the proposed plan is or is not consistent with the stated purpose and intent of the UMCAD regulations.
 - b. The extent to which the proposed plan departs from the zoning and subdivision regulations otherwise applicable to the subject property, including but not limited to density, size, area, bulk and use, and the reasons why such departures are or are not deemed to be in the public interest.
 - c. The extent to which the proposed plan meets the requirements and standards of the UMCAD regulations.
 - d. The physical design of the proposed UMCAD amendment and the manner in which said design does or does not make adequate provision for public services, provide adequate control over vehicular traffic, provide for and protect designated common open areas, and further the amenities of light and air, recreation and visual enjoyment.
 - e. The compatibility of the proposed UMCAD amendment with the adjacent properties and neighborhood.
 - f. The desirability of the proposed UMCAD amendment to physical development of the entire community.
 - g. The conformity of the proposed UMCAD amendment with the goals and objectives and Future Land Use Maps of the City of Coral Gables Comprehensive Plan.
 4. Approval by the City Commission. The City Commission upon receipt of the recommendations of the Planning and Zoning Board shall approve, approve with modifications, or disapprove the Preliminary Development Plan for the proposed UMCAD amendment. The approval of the Development Plan shall be by Ordinance. No building permits shall be issued, no construction shall be permitted and no plats shall be recorded on land within the UMCAD until the Final Development Plan has been approved by the City Commission.
- U. Amendments to the UMCAD. Amendments to the UMCAD shall be considered as major or minor. Minor amendments as specified in Section 4-202(U)(1) herein may be approved administratively by the Building and Zoning Department with recommendations from other departments, as needed. Major amendments as specified in Section 4-202(U)(2) herein, shall be subject to the review and approval process set forth in Section 4-202(T). The Building and Zoning Department, with recommendations from other departments, as needed, shall determine whether proposed changes are major or minor. Requests for major amendments may be made no more than once per twelve (12) month period.
1. Minor amendments. Minor amendments are changes which do not substantially alter the concept of

ARTICLE 4 - ZONING DISTRICTS

the UMCAD in terms of density, floor area ratio, land usage, height, provision of landscaped open space, or the physical relationship of elements of the development. Minor amendments shall include, but shall not be limited to, small changes in floor area, density, lot coverage, height, setbacks, landscaped open space, the location of buildings, parking, or realignment of minor streets which do not exceed twenty (20%) percent of the guideline limits contained within this Article specific to that type of development or that which is shown on the approved development plan.

2. Major amendments. Major amendments represent substantial deviations from the development plan approved by the City Commission. Major amendments shall include, but not be limited to significant changes in floor area, density, lot coverage, height, setbacks, landscaped open space, the location of buildings, or parking, which exceed twenty (20%) percent of the guidelines contained within this Article specific to that type of development or that which is shown on the approved development plan, or changes in the circulation system.
- V. Binding nature of approval for the UMCAD. All terms, conditions, restrictions, safeguards and stipulations made at the time of approval of the UMCAD shall be binding upon the applicant or any successors in interest. Deviations from approved plans or failure to comply with any requirements, conditions, restrictions or safeguards imposed by the City Commission shall constitute a violation of these zoning regulations.
- W. Commencement of construction. The developer shall obtain a building permit and begin construction of the improvements within the UMCAD within three-hundred and sixty-five (365) days from the effective date of the ordinance approving the UMCAD amendment (or subsequent updates). Time limitations on permits shall be in accordance with Section 304.3 of the Florida Building Code as amended. If the developer fails to commence construction of the UMCAD within the specified time or if the work is not being carried on in accordance with said Section 304.3 of the Florida Building Code (as amended) the approval of the UMCAD amendment shall lapse.

If the UMCAD is to be developed in stages, the developer must begin construction of each stage within the time limits specified in the Development Plan (or subsequent updates). Construction in each phase shall include all the elements of that phase specified in the UMCAD amendment.

- X. Monitoring construction. The City Manager or his designee shall periodically monitor the construction within the UMCAD with respect to start of construction and UMCAD Amendment Phasing. If the City Manager or his designee finds that either the developer has failed to begin construction within the specified time period or that the developer is not proceeding in accordance with the approved UMCAD Amendment Phasing with respect to timing of construction of an approved mix of project elements, he shall report to the City Commission and the City Commission shall review the UMCAD amendment and may extend the time for start of construction or the length of time to complete a phase, revoke approval of the UMCAD amendment or recommend that the developer amend the UMCAD amendment subject to procedures specified in Section 4-202(U) herein.

Section 4-203. Zain/Friedman Miracle Mile Downtown Overlay (DO) District.

A. Purpose and applicability.

1. The purpose of the Zain/Friedman Miracle Mile Downtown Overlay (DO) District is to promote the goals, objectives, and policies of the City's Comprehensive Plan in accordance with a set of comprehensive standards to be approved within the Miracle Mile area. These standards are provided for the continuance and enhancement of the historic downtown area as the functional and symbolic center of the City.
2. The district is established in order to maintain the following objectives:
 - a. Maintain the aesthetic, physical, historic and environmental character of Downtown Coral Gables.
